For a long time, one has thought that the beneficial action of the medicinal plants, had only to some active principle that could be isolated (to synthesize); but in recent years it has been discovered that exists a kind of "influences" or factors, that are not quantifiables, but that have repercussions over the power and effectiveness of the remedy.

Our spagyrics remedies are prepared with precise and strict norms, that they consider the astral cycles and influences, as well as the specific affinity of each substance.

Forza Vitale, offers us a complete range of products, whose processing imitates the Nature process, recovering therefore the herbalist tradition: To separate (purify) and to reunite.

We also separate in the laboratory, the active principles from the less assimilable parts to our body (purifying them), meeting there in a highly bioavailable solution, that will help you to maximize your well-being at all the levels: Physicist, mental and spiritual.

Organs and meridians clock, for the selection of the product:

Organic Silicium G5 (1 liter)

Food supplement. Completely taken in by organism and immediately bioavailable for the cells. Perfect non-colloidal solution with no presence of crystallization, shaking not necessary. Dr. Loïc Le Ribault obtained the first drinkable organic silica in 1994. This product is the fifth generation of the oral organic silica (G5). It is easier to take in and more effective in its contribution of silica than any colloidal silica, silicic acid or plant extract high in silica and with none of the possible side effects of the above mentioned.

Due to the deficiency of this element in numerous people (Seaborn, Nielsen 1993, 2004), it is highly recommended for old, weak, convalescent, tired people and also for sportspeople, as it helps to a general well-being. Silicium G5 is recommendable for:

Keeping joints supple and flexible, cartilage protection, bone development and calcium assimilation, rejuvenating tissue, healthy hair and nails, healing fractures, enhancing mineralization and promoting the rejuvenation and elasticity of the skin.

Physiological activity: It is known that our natural silica reserve decreases with age, and that is an essential trace element required to maintain a healthy body. It has the same metabolims as phosphorus, magnesium and calcium. It allows calcium to be deposited in bone structure. It helps regain a greater elasticity to all our body tissues.

Ingredients: Water, Organic Silica (natural monomethyl silantriol).

Directions for use: Take 10 ml three times a day, between five and ten minutes before meals. It is beneficial even for old people, pregnant or lactating women. It is compatible with any other medicine or complement, although for greater effect it is not recommended to take both at once. Other than this, no precautions are to be taken as is a completely non-toxic product .

Packaging: 1.000 ml. bottle. Drinkable liquid, insipid. Estimated duration of the bottle: 5 weeks.

Liquid organic silicium of fifth generation, according to Le Ribault. For an intensive treatment from 25 to 35 days (three spoonfuls daily more local application) or from 4 to 5 months one spoonful if a daily maintenance is made.

WARNING:

Silicium G5 does not contain derivatives of salicylates (aspirin) nor plant extracts

plants or other trace elements that limit their absorption. His assimilable organic silicon concentration is of 0.2%. This is the fraction that really is assimilated, the products that affirm to be more concentrated, perhaps will be in other extracts but not in assimilable silicon. It is

what in chemist is denominated maximum solubility or concentration of saturation, everything what exceed of this limits make that the silantriol, precipitates and falls to the bottom or in any case

crystallize without possibility that the organism absorbs e disabling its passage to the cells.
